

GAS HOBS

Gas Hobs

Fire that does exactly what you want.

Create favorite delicacies more efficiently with our new gas hobs from Bosch. Our innovative technology allow you to enjoy a completely new level of precision when it comes to adjusting the flame by selecting from our wide range of burners which is suitable for heavy and light cooking. But that's not all. With our timeless design and carefully selected materials, our gas hobs are also a true feast for your eyes while prioritising your kitchen safety.

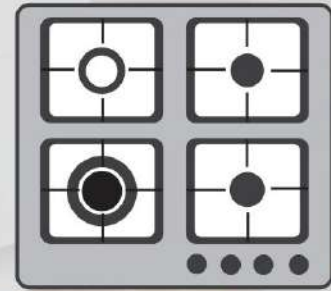

German design:

The brushed steel finish and the durable glass tops of our hobs have been designed to accentuate the aesthetics of your kitchen. While the brushed steel finish keeps the corrosion and scratches to a bare minimum, the 8mm tempered glass top ensures maximum safety in your kitchen.

The 8mm tempered glass top has been passed through multiple rigorous German standard quality tests like 'Thermal Stress' and 'Thermal Shock Resistance'.

DID YOU KNOW ?

Bosch gas hobs ensures maximum gap between the burners to accommodate big vessels simultaneously for faster cooking and saves time.

Hobs | Gas cooktops

Achieve perfect cooking results, everytime.

At Bosch, we understand the hard work and precision that goes into making your favourite dishes perfectly well-done meal.

Burner Series

Aluminium burner:

Our world-class aluminium burners ensure faster heating with better heat distribution making it perfect for cooking various delicacies.

Secure

Flame failure safety device:

With your safety in mind, our gas hobs are built with an ingenious flame failure safety device which automatically shuts off gas supply when there is no detection of flame.

Sturdy and durable pan support:

The strong and sturdy cast iron pan supports of our hobs prevent wobbling while providing ultimate stability even for heavy cooking vessels.

Ergonomic

Sword shaped knobs:

We understand the variation of heat levels Indian dishes require. Which is why, the easy to use control knobs of our hobs have been designed to give you complete control over the flame.

Auto ignition:

Say good-bye to lighter! Our auto ignition feature automatically lights up the gas doing away with the hassle of using a lighter, thus, making your life easy.

Rubber gasket:

The rubber gaskets around our knobs prevent the seepage of water during cleaning, ensuring both safety and long product life.

FlameSelect

Our FlameSelect Hobs provide you with efficiency and controls of the different levels of flame, for all the ways you can imagine cooking.
